

## **Glamorgan Trading Standards Approved Trader Scheme**

The seven Glamorgan authorities' Trading Standards departments are working together to provide an Approved Trader Scheme for the area.

The Scheme allows you to find a tradesman to carry out repair, maintenance or improvement work on your property who has been approved under the TrustMark standard.

TrustMark is the Government backed approved trader scheme designed to help ensure that traders are reputable and carry out good quality work. Businesses who become members of the scheme undertake to operate their business in a legal, honest and fair way and are vetted and monitored by a TrustMark Scheme Operator. We are working with Exor Management Services Limited who are a Scheme Operator to ensure that our Approved Trader Scheme is properly managed in line with TrustMark standards.

To find a TrustMark approved trader in your area or to find out more about the scheme click on the link below:
