September 2016

Consortiwm Canolbarth y De Central South Consortium

> wasanaeth Addysg ar y Cyd int Education Service

- » At the expected level, consortium performance improved again in all but one of the main performance indicators in the foundation phase. The exception was LLCW where there was a dip of 0.1pp. However, this indicator shows the greatest improvement (6.8pp) over the last three years. For all key indicators the improvement is smaller than it has been in the last three years.
- » At the above expected level, there was an improvement of above 2pp for all four main performance indicators, with the greatest improvement in PSD of 5.1pp. Improvement at the above expected level has been greater than that at the expected level, both over the last academic year and over a three year period.

FPOI:

» Despite a dip in two of the LAs, all five LA's performance was above that of the Welsh average of 87%.

LLCE:

- » At the expected outcome, performance in LLCE improved across the CSC (89.4%) by 0.7pp compared with an unchanged national performance of 88%. The percentage of pupils attaining the expected level or above in LLCE is above the national average in four of the five LAs.
- » When looking at the three year trend, performance in LLCE has improved more in four of the five LAs than it has done nationally, producing a CSC improvement of 4.9pp, in comparison to a national improvement of 2.8pp.
- » At the above expected level in LLCE, there were further improvements in four out of the five LAs.
- » When considering improvement over four years, all LAs have improved more than the national average (6.7pp), resulting in a CSC improvement of 8.6pp.

LLCW:

- » At the expected level for LLCW, all five LAs perform better than the national average (90.7%), resulting in a CSC percentage of 93.9%. This is despite a dip in performance in two LAs.
- » Whilst all five LAs show an improvement over three years to produce a CSC improvement of 6.8pp, the improvement is variable across the LAs ranging from 0.5pp in Bridgend to 10.7pp in RCT.
- » At the above expected level for LLCW, there was an improvement in the CSC performance of 2.2pp despite a dip nationally of 0.7pp
- » Over four years the CSC performance has improved by 14.9pp compared to a national improvement of 6.9pp. Over that period the greatest improvement has been seen in Merthyr (27.1pp) and the smallest in Bridgend (11.4pp).

Mathematical Development:

- » At the expected level for MDT, in four out of the five LAs improvement continued for a third consecutive year. In these four LAs the percentage of pupils working at the expected level or above is above the national average of 89.9%.
- » The improvement over fouor years is greater in the CSC and in four of the five LAs than it is nationally (2.5pp).
- » At the above expected level in MDT, all five LAs made further improvement for the third consecutive year.
- » Over the four year period, all five LAs have improved more than the Welsh average of 8.2pp.

PSD

- » Performance has remained comparatively static at the expected level for PSD. Nationally there was a dip of 0.3pp. Performance improved in three of the five LAs by between 0.3 and 0.8pp, resulting in an overall improvement for the CSC of 0.2pp.
- » The percentage of pupils working at or above the expected level in four of the five LAs is above the national average of 94.5%.
- » At the above expected level for PSD all five LAS improved performance for the third consecutive year.
- » In four of the five LAs the improvement was greater than that nationally (2.9pp), resulting in an overall improvement for the CSC of 5.1pp.
- » However, the percentage of pupils working at the above expected level is lower for the CSC (57.6%) than the national average (58.9%). Only in two LAs is the percentage of pupils working at this level greater than that nationally.

Gender

- » At the expected level, girls have out- performed boys in all indicators for the last four years. The gap in performance show little signs of closing.
- » At the above expected level, girls have out- performed the boys in all but one of the four areas for every year shown. In mathematical development boys have either outperformed or matched the performance of girls in three of the last four years.

eFSM

- » When considering the FPOI for eFSM and non eFSM pupils, the performance of both groups of pupils continues to improve year on year, with the performance of those learners entitled to free school meals improving more rapidly. There remains however a difference in performance of 12.7pp.
- » In terms of the different areas of learning the gap is narrowing at the expected and above expected level in all areas. However, the gap at the higher level is greater and in excess of 20pp.

» In all performance indicators CSC performance is above or equal to the national average at the expected and above expected level. This includes all aspects of English and Welsh.

CSI:

- » There has been a further improvement in the core subject indicator, CSI, in all five local authorities for the fifth successive year.
- » The rate of improvement in the consortium since 2013 at 6.2 pp is greater than that across Wales (4.3pp).

English:

- » Performance in English at the expected level improved again last academic year in all five LAs, as it has done for the last fouryears.
- » In 2016 both the expected and above expected level, performance improved in all three aspects of English.
- » Writing (1.9pp) improved most at the expected level and reading (2.2pp) at the above expected level. Performance in writing at both expected and above expected levels remains lower than that in oracy and reading. The difference is greater at the above expected level.

Welsh:

- » At the expected and at the above expected levels, improvement in all aspects has been greater in Welsh than in English, when considering the last three years.
- » At the expected and above expected levels, all aspects of Cymraeg improved last academic year. At the expected level, the improvement in Cymraeg for CSC (1.5pp) is five times greater than that for Wales(0.3pp),
- » At the expected level writing shows the greatest improvement both last year (2.8pp) and over a three year period (9.0pp).
- » The percentage of pupils attaining the expected outcome and the above expected outcome is lower for writing than oracy and reading, with the greater difference being at the above expected level.

Mathematics:

- » At the expected level, all LAs have improved performance in mathematics again this year, as they have for the last four years
- » Since 2013, the improvement in all five LAs has been greater than the improvement across Wales.
- » At the above expected level in mathematics, all LAs have improved performance again this year, as they have done for the last three years.
- » When considering the improvement at the expected level since 2013, all five LAs have improved at a faster at than the Welsh average (7.5pp).

Science:

- » At the expected level, improvements in science in both the last academic year and since 2013, has been less than in mathematics at a consortium level.
- » However, with the exception of one LA, where performance remained the same last academic year, all LAs have improved performance year on year for the last three years.
- » At the above expected level, performance in science improved again for the third year in four of the five LAs.
- » When considering performance over the three year period since 2013, science in all LAs has improved at a greater rate than the Welsh average (6.4pp)

Gender.

- » At the expected level, girls have out- performed boys in all indicators for the last four years. The gap in performance show little signs of closing.
- » At the above expected level, girls have out -performed the boys in all but one of the four areas for every year shown. The greatest gap in performance is in language. In mathematics boys have outperformed the performance of girls in three of the last four years.

eFSM:

- When considering the CSI for eFSM and non eFSM pupils, the performance of both groups of pupils continues to improve year on year, with the performance of those learners entitled to free school meals improving more rapidly. There remains however a difference in performance of 14.5pp.
- » At a subject level, a clear pattern emerges. The gap is narrowing at the expected level in English, Welsh, mathematics and science. However at the above expected level, the difference in performance shows little sign of closing and is greater than 25pp for each subject.

- » At L5+, there has been further improvement in all five indicators. The consortium is now performing above the Welsh average for all of these. The greatest improvement both last year (3.1pp) and over the three year period(10.6pp) is in the CSI.
- » At L6+ there has been further improvement of between 4.1 and 4.8pp for all four indicators. The consortium is now performing above the Welsh average for all of these. The extent of the progress over three years ranges from 11.5% in Maths to 19.4% in Cymraeg.
- » At L7+ there has been further improvement in three of the four indicators but a dip of 1.5pp in Cymraeg. With the exception of that one indicator, the CSC performance is above the national average for all the indicators. Over the three year period the greatest improvement has been seen in science (10.7%)

CSI:

- » The CSI has improved year on year in all five LAs resulting in an overall CSI for the consortium of 86.7%, which is above the national average (85.9%). The % of pupils attaining the CSI is above the national average in four of the five LAS
- » The range of improvement over the four year period is from 8.7pp in The Vale to 18.1pp in Merthyr. Nationally the improvement is 8.9pp.

English:

- » At L5+ all aspects of English improved last year, with writing improving most (3.1pp).
- » Over the four year period there has been a similar improvement in all three aspects of English with the range between 7.5 and 8.0pp.
- » At L6+ there was improvement last academic year in all aspects of English with oracy being the most improved (5.7pp).
- » Over the four year period improvement has been greater at L6+ than at L5+ and L7+, with the range between 9.3pp (writing) and 15pp (oracy).
- » At L7+ whilst all aspects of English improved, the improvement was less, ranging between 0.8pp (writing) and 2.8pp (oracy).
- » Over the four year period, the gains are generally less than at the lower levels, ranging between 3.4pp (writing) and 7.2pp (oracy).

Cymraea:

- » At L5+ Cymraeg, the improvement in writing of 2.6pp resulted in an overall improvement of 0.5pp in Cymraeg despite a dip in oracy and reading.
- » Since 2013 performance has improved in all aspects of Cymraeg with the greatest improvement in writing (9.8pp).
- » At L6+, Cymraeg improved by a further 4.8pp largely due to an increased performance in reading of 6.7%. There was a dip in writing of 0.8pp.

- » The improvement since 2013 has been greater at L6+ than at L5+ and L7+, with the greatest improvement being in reading (20.1pp).
- » At L7+ performance in Cymraeg fell by 1.5pp. There was a small increase in writing (0.2pp) but a drop in oracy (2.3pp) and reading (2.4pp).
- » Over four years the extent of improvement is less at L7+.

Mathematics:

- » At L5+, L6+ and L7+, there has been continued improved performance in all five LAs.
- » At L5+, L6+ and L7+ the CSC is above the national average.
- » Despite the improved performance at least two LAs are below the national average at L5+, L6+ and L7+.
- » Over four years the extent of the improvement at L5+, L6+ and L7+ is greater in the CSC region than it is nationally.

Science:

- » At L5+, L6+ and L7+, there has been continued improved performance in all five LAs.
- » At L5+, L6+ and L7+ the CSC is above the national average.
- » Despite the improved performance at least two LAs are below the national average at L5+, L6+ and L7+.
- » Over four years the extent of the improvement at L5+, L6+ and L7+ is greater in the CSC region than it is nationally.

Gender:

» Year after year, in all key indicators girls out- perform boys at L5+, L6+ and L7+, despite boys' improved performance.

eFSM:

- » When considering the CSI for eFSM and non eFSM pupils, the performance of both groups of pupils continues to improve year on year, with the performance of those learners entitled to free school meals improving slightly more quickly. There remains however a difference in performance of 20.1pp.
- » In English the performance of eFSM pupils has improved year after year for the last four years. However, the gap in performance with non eFSM pupils remains at L5+, L6+ and L7+ and shows little sign of narrowing. It is greatest at L6+ (29.4pp).
- » There has been a widening in the gap between eFSM and non eFSM performance in Cymraeg at L5+ and L6+, with a slight narrowing at L7+ of 0.9pp.
- » In mathematics the performance of eFSM pupils has improved year after year for three years at L5+, L6+ and L7+. However, the gap in performance with non eFSM pupils has widened at these three levels this year. The greatest gap is at L6+ (30.4pp).
- » In science the performance of eFSM pupils has improved year after year for three years at L5+, L6+ and L7+. However, the gap in performance with non eFSM pupils has widened at these three levels. The greatest gap is at L6+ (30.6pp).

Please note that Welsh national averages are not yet published.

» There was an improvement last academic year in all main key performance indicators, with the exception of a drop of 2.7pp in L2 science. The improvement made in a number of indicators is smaller than in previous years but has sustained the year on year improvement. The greatest improvement was in L2 Cymraeg (9.2pp).

Level 2+

» The L2+ for the consortium increased by a further 2.5pp, an improvement of 11.6pp since 2013. At an LA level the greatest increase for this measure last year was 4.5pp and the smallest was 1.5pp. Welsh national averages are not yet published.

Level 1:

» Overall the CSC performance for L1 improved by 0.7pp. The LA performance varied from a dip of 0.2pp in one LA to an increase of 2.7pp in another.

Level 2:

» There was an improvement of 1.7pp for the consortium. The range for the LAs was between a dip of 1.7pp in one LA to an increase in the remaining four of between 2.8 and 3.2pp.

CSI:

» A further increase of 2.3pp was secured in the CSI last academic year, building on previous improvements to deliver a total improvement of 12.2pp since 2013. All five LAs have improved every year for this measure since 2013.

Level 2 English:

Whilst the CSC performance for L2 English improved by 0.9pp last academic year, the LAs' performance for this measure was variable. There was a fall in performance in two LAs and an improvement in the remaining three LAs of between 1.7pp and 3.5pp.

Level 2 Cymraeg:

» The 9.2pp improvement for the CSC is largely the result of a 12.9pp increase in one LA Results fell for the third consecutive year in another LA..

Level 2 Mathematics:

» The overall CSC improvement of 1.3 pp in L2 mathematics last academic year is underpinned by variable LA performance. There was a significant fall in performance in one LA of 11.1pp following two years' of improvement. Performance improved in the remaining four LAs for the third consecutive year.

Level 2 Science

» L2 Science fell for the CSC as a result of falling performance in three LAs. The fall in one LA of 15.8pp has resulted in an overall fall in performance for that LA since 2013. However, over the period since 2013 performance at a consortium level has improved by 7.7pp.

Gender:

» With the only exception on L2 mathematics last year, girls have out- performed boys in all key indicators, every year since 2013. The greatest difference in performance is in L2 English.

eFSM

» Despite an improvement in the performance of pupils entitled to free school meals, the gap between their performance and those non eFSM pupils for the L2+ measure remains at 33pp, with little sign of narrowing.

Further eFSM data is not yet available.

Level 3 Threshold:

» There was a small (0.2pp) improvement in the percentage of pupils attaining the level 3 threshold. Since 2013 the improvement for this indicator for the CSC is 1.9pp.

A Level Passes

Δ*-Δ:

» At a consortium level, there was a 0.5pp increase in the % of pupils securing A*-A. However, over a three year period there has been a decline of -2.7pp in this indicator for CSC. Nationally the dip is 0.2pp. . CSC performance (23.4%) for this indicator is above the national average (22.7%).

A*-C:

» There was an improvement in all four LAs in the percentage of pupils securing grades A*-C, resulting in a CSC improvement of 2.1pp. This compares with a dip nationally of 0.5pp. CSC performance (76.2%) for this indicator is above the national average (73.8%).

A*-E

» There was an increase in the CSC percentage of pupils at A*-E of 0.4pp. There was no change nationally. CSC performance (97.8%) for this indicator is above the national average (97.3%).

Gender

» With regards to gender differences, although the girls have out- performed boys for the last four years, the difference is less than that seen in the other phases. This year the difference was 1.5pp.
