

RHONDDA CYNON TAF COUNTY BOROUGH COUNCIL

ENVIRONMENTAL IMPACT ASSESSMENT (LAND DRAINAGE  
IMPROVEMENT WORKS) REGULATIONS 1999

IMPROVEMENT WORKS RELATING TO  
**Cwmaman Flood Alleviation Scheme**

**THE RHONDDA CYNON TAF COUNTY BOROUGH COUNCIL** ("The Council") **GIVES NOTICE** in accordance with Regulation 5 of the Environmental Impact Assessment (Land Drainage Improvement Works) Regulations 1999 as follows:

1. The Council proposes to carry out land drainage improvement works on the watercourse to enable the area to be reprofiled to attenuate peak surface water flows on the Nant Aman Fawr at Cwmaman. This will reduce the peak flows to the downstream existing culvert which is in an area which has a high risk of flooding.
2. The Council does not intend to prepare an environmental statement in respect of the proposed improvement works.
3. A description of the location, nature and size of the improvement works are set out in Part I of the Schedule to this Notice.
4. Any person who wishes to do so may make representations in writing in relation to the likely environmental effects of the proposed improvement works to the Service Director of Highways, Transportation and Strategic Projects at Sardis House, Sardis Road, Pontypridd, CF37 1DU within 28 days of the date of this Notice.
5. The additional information concerning the improvement works set out in Part II of the Schedule to this Notice can be obtained from the Service Director of Highways, Transportation and Strategic Projects at Sardis House, Sardis Road, Pontypridd, CF37 1DU during normal office hours.

## SCHEDULE

### Part I – details of improvement works

Location of improvement works: Public Open Space (reclaimed former colliery and spoil tip) and natural watercourse West of Cwmaman. OSGR 298913, 199520).

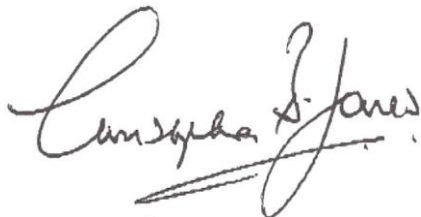

Nature and size of improvement works: All temporary and permanent works associated with:

- i. Works to attenuate surface water thereby reducing peak flows to the downstream existing culvert.
- ii. Softening of existing silt trap / pond to encourage ecological enhancement.
- iii. Creation of wetland shoulders to the existing pond.
- iv. Reinstatement of all areas affected by the above works.
