**This form must be completed for all applications for domestic work  
made after 1<sup>st</sup> January 2005.**

**PART P**

**Electrical Installations in Dwellings**

Please indicate which of the following methods you intend to use in order to demonstrate that all fixed electrical installation works associated with this application will be designed, installed, inspected and tested in accordance with BS7671:2001. (as amended).

a) **Competent Person Scheme**  
No additional charge (see list of approved schemes in attached guidance note).

b) **BS7671 Certificate**  
A qualified competent electrician who has installed the work must certify that the work has been designed, installed, inspected and tested in accordance with BS7671 and provide an Electrical Installation Certificate with associated inspection and testing Schedules to BS7671. *(N.B. This option will attract an additional charge based on the cost of works in Schedule 3 over and above the normal application charge identified from the attached charges scheme).*

The qualified competent person must be a Member of a certified body i.e. NICEIC, NAPIT, ELECSA Ltd, BRE Certification Ltd, British Standards Institution.

c) **Building Control Body**  
(N.B. This option will attract an additional charge of £297.28 over and above the normal application charge identified from the attached charges scheme based on the cost of the electrical installation works and full cost recovery).

Note: Choosing Option a) or b) at this stage and then reverting to Option c) on site will incur a greater charge than if Option c) were chosen now but additionally, may also involve the opening up of completed works in order to expose, for inspection, fixed electrical wiring/installations.

See attached guidance note for further information on the Requirements of Part P Electrical Safety, what is notifiable Work, Competent Person Schemes and Exempt works etc.
