NOTE

As soon as Leafnut system has been installed pass all the details to Leafnut Support. The nodes will be hosted on the Section 38 Trunk until adopted by Rhondda Cynon Taf at which time they will be transferred to the Rhondda Cynon Taf system.

OVERVIEW OF PROGRESS

1. Approach leafnut support about the proposed installation.
2. Record all leafnut and branch nodes identification numbers and their locations.
3. Install all branch nodes and leafnut nodes on site.
4. Pass all data to leafnut.
5. Data added to Section 38 Trunk by Leafnut.
6. The installation is then managed by Leafnut.
7. All on-site maintenance is the responsibility of the developer until adoption.
8. Upon adoption the installation is added to the Rhondda Cynon Taf Trunk.
9. Rhondda Cynon Taf manages the new installation.
