## 32 **Summary of Performance and the use of Interim Performance Measures**

The Senior Challenge Adviser Central South Consortium in conjunction with the Data, Quality and Intelligence Unit Manager Central South Consortium presented Members of the Joint Committee with an overview of the changes to performance measures for 2019 and going forward.

It was explained that the changes to publication of data below National Level by Welsh Government over the last two years for foundation phase, key stage 2 and key stage 3 has resulted in changes to the information reported by the Central South Consortium and by local authorities to scrutiny committees and other public groups.

It was also explained that changes to key stage 4 performance measures in 2019 means that comparisons are no longer available with data from previous years. The officers went on to indicate that this has resulted in a change in the information that is available to be made public by the Central South Consortium and local authorities for this key stage.

The Senior Challenge Adviser Central South Consortium presented Members with information under the following headings:

- Our National Mission and CSC Business Plan 2019-20;
- Changes for Teacher Assessment Reporting at foundation phase, key stage 2 and key stage 3;
- Interim Performance Measures at key stage 4; and
- Future national developments.

The Senior Challenge Adviser added that the CSC Business Plan priorities 1 – 4 align directly with objectives in Welsh Government's (WG) National Mission and also explained that the Education (amendments relating to teacher assessment information) (Wales) Regulation 2018 highlighted some key changes including:

- Teacher assessment can be used for information purposes only and to develop school improvements but should not be used for school accountability purposes below national level.
- There is no change to the collection process or to the information that WG will hold;
- Teaching assessment data below National level will be removed for all publicly available data sources:
  - StatsWales website
  - My Local School
  - Statistical Releases
- Comparative data for local authorities and regional consortia will not be available.

Members were informed that the implications for schools with regards to Foundation phase, key stage 2 and key stage 3 are that the following information will no longer be available:

- DEWi Comparative Reports;
- All Wales Core Data sets (AWCDS);
- National Benchmarking Data (FP, KS2 and KS3); and
- Family average comparisons (as previously included in AWCDS).

Members raised concerns with regards to data sharing at teacher assessment level and asked how schools will adjust to the change. It was explained that for 2018/19 the CSC will provide an interim evaluation of a school – “CSC School on a page” which will assist and support, where needed, school self-evaluation activities.

Another Member asked how Estyn would use the data going forward within schools. Officers explained that Estyn would align with the changes going forward.

In respect of Key Stage 4 Performance Measures, Members were presented with an overview of the way in which these measures will be reported going forward. It was explained historical performance measures will no longer be published by WG and includes: % Level 1 Threshold, % Level 2 Threshold, % Level 2+ Threshold and % 5A\* - A. It was also explained that the interim measures will be point based rather than focused on the percentage of pupils attaining a particular threshold grade / level and that the measures published will be:

- The capped 9 measures (3+6);
- Literacy measure (best Language /Literature);
- Numeracy measure ( best of mathematics / numeracy);
- Science measure (best of science); and
- Welsh Baccalaureate Skill Challenge Certificate measure.

Members thanked the Officers for the report and put forward further questions and observations. The Officers then introduced the Head Teacher of Pontypridd High School who presented Members with an example of how the school is working with the new measures.

The Head Teacher thanked the Joint Committee for the opportunity to present the way in which Pontypridd High School has adapted to the new performance measures.
