CABINET STATEMENT

TITLE: WINTER WEATHER
DATE: 29th January 2013
BY: Councillor Anthony Christopher – Leader of the Council

Can I express, I am sure on behalf of every member, the Council's thanks to all our staff involved in our response to the difficult situation the severe inclement weather over the last week or so presented us with.

It is because of their dedication that the County was kept moving as best as possible, that we were able to continue supporting the vulnerable and delivering key services.

Can I also thank Officers for ensuring members and the public were kept up to date.

I know all our services areas were involved and can I therefore request that each of the Chief Officers present here take back the thanks of this Council to their departments for the sterling work they undertook.
