PROGRESS REPORT**

**Author: Mrs A Edwards – 01443 424102

1. PURPOSE OF THE REPORT

- 1,1 The purpose of the report is to provide Members with the opportunity to consider the progress made in response to the recommendations arising from the Wales Audit Office's report 'Managing the Impact of Welfare Reform Changes on Social Housing Tenants in Wales.'

2. RECOMMENDATIONS

- 2.1 Members are asked to form a view on the adequacy of progress in respect of the recommendations arising from the Wales Audit Office report and consider whether any further information is required.

3. BACKGROUND

- 3.1 In January 2015, the Wales Audit Office published its findings of a national review titled 'Managing the impact of Welfare Reform Changes on Social Housing Tenants in Wales'. The full report can be accessed via the following link:
<http://www.audit.wales/publication/managing-impact-welfare-reform-changes-social-housing-tenants-wales>
- 3.2 The findings from their national review led the Wales Audit Office to the conclusion that changes to the Housing Benefit introduced by the welfare-reform programme are having a significant impact on Welsh councils and housing associations, and they are struggling to deliver effective and sustainable solutions to address the challenges they face.
- 3.3 In response to their findings the Wales Audit Office formed several recommendations for improvement. These recommendations formed part of the WAO Annual Improvement Report 2014-15 for Rhondda Cynon Taf and at the meeting of the Overview & Scrutiny Committee held on 21st October 2015 it was agreed that the Committee should receive an update on progress.

- 3.4 Members are therefore asked to consider the progress update from officers which is attached at Appendix 1 and form a view on the adequacy of progress in progressing the regulator's recommendations.

What are we trying to achieve, the outcome	Reduce and alleviate the effects of poverty by mitigating the impact of welfare reform on households Rhondda Cynon Taf
Why we need to do it:	The changes being made to the Housing Benefit system as part of welfare reform will affect a greater proportion of social-housing tenants in Wales than in England or Scotland, and there is increasing poverty, debt and exclusion amongst some social-housing tenants which coincide with these changes

WAOMIWRR3 - Ensure effective management of performance on welfare reform by: <ul style="list-style-type: none"> • setting appropriate measures to enable members, officers and the public to judge progress in delivering actions; • ensuring performance information covers the work of all relevant agencies and especially housing associations; and • establishing measures to judge the wider impact of welfare reform. 	Performance measures are incorporated within Corporate improvement plans, where practicable, which has allowed performance to be measured and compared over time and monitor progress in delivering agreed priority actions. However, these measures are predominately focused on measuring the impact of support programmes funded and/or delivered by the Council to help mitigate the impact of welfare reform changes on individual residents. Current measures however do not provide a balanced set of indicators that enables a multi-agency assessment of impact or provide an adequate judgement of the wider impact of welfare reform in Rhondda Cynon Taf.	Performance and outcome measures will be agreed as part tackling poverty strategy development and monitored through implementation of the delivery plan	April 2017	Head of Communities & Prosperity
