Er ei fod yn ymddangos yn amherthnasol, mae modd i'r cynnydd mewn costau byw gael effaith enfawr ar ein lles. Gallai misoedd y gaeaf a 'melan y gaeaf' effeithio ymhellach ar hyn. Felly, rydyn ni wedi rhestru rhai ffyrdd hawdd o ofalu amdanoch chi'ch hun a threchu melan y gaeaf, isod!

Mae'n bwysig eich bod chi'n dod o hyd i ymarfer corff rydych chi'n ei fwynhau ac mae modd i chi ei wneud yn rhan o'ch ffordd o fyw. **Cliciwch yma i ddysgu rhagor gan y GIG am gadw'n heini.** <https://www.nhs.uk/better-health/get-active/>

- Mynd allan yn yr awyr agored.** Ceisiwch fynd allan yn yr awyr agored mewn golau dydd naturiol cymaint â phosibl, yn enwedig ar ddiwrnodau braf. Dyw hyn ddim yn golygu troi eich gwres i fyny yn unig. Cadwch yn gynnes drwy yfed diodydd poeth a bwyta bwyd poeth, gwisgo digon o ddillad a gwisgo esgidiau. Beth am ddefnyddio potel dŵr poeth hefyd?

- Bwyta'n iach.** Gall fod â deuet iach yn gyffredinol wella eich hwyliau, eich lefelau egni a hefyd eich iechyd corfforol. Ceisiwch fwyta llawer o ffrwythau, llysiau a phrotein.

Gallai hyn fod yn unrhyw beth, o goginio ryseitiau newydd, dysgu iaith newydd, gweu, cadw dyddiadur, neu ymuno â grŵp ymarfer corff, megis tîm pêl-droed. Beth bynnag rydych chi'n ei ddewis, y peth pwysicaf yw eich bod chi â rhywbeth cadarnhaol yn eich bywyd rydych chi'n ei fwynhau ac yn edrych ymlaen at ei wneud.

- Gweld eich teulu a'ch ffrindiau.** Mae cysylltu ag eraill yn un o'r pum ffordd i wella eich lles ac mae ymchwil wedi dangos ei fod yn dda ar gyfer eich iechyd meddwl ac er mwyn mynd i'r afael â melan y gaeaf. - Siarad am eich teimladau.** Mae siarad am sut rydych chi'n teimlo yn bwysig fel nad ydych chi'n delio gyda phethau ar eich pen eich hun, ac i normaleiddio eich teimladau. Siaradwch â'ch ffrindiau, eich teulu neu'ch cydweithwyr. Os dydych chi ddim yn teimlo'n gyfforddus yn gwneud hyn, yna siaradwch â gweithiwr proffesiynol, megis eich meddyg teulu, neu â'r rhaglen cymorth i weithwyr.

## How to save energy when working from home

### The ultimate guide

Let's take action and make small, easy, affordable working from home changes

### My technology

77% less energy to use a laptop than a desktop computer

Energy Saving Trust

Turn off your computer completely at the end of the day.

Computers still use

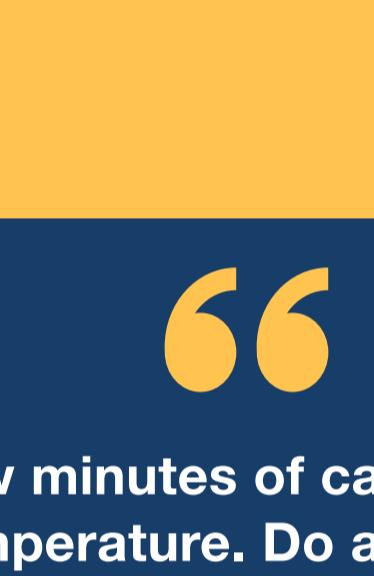

10-60%

of power even when on standby. WWF

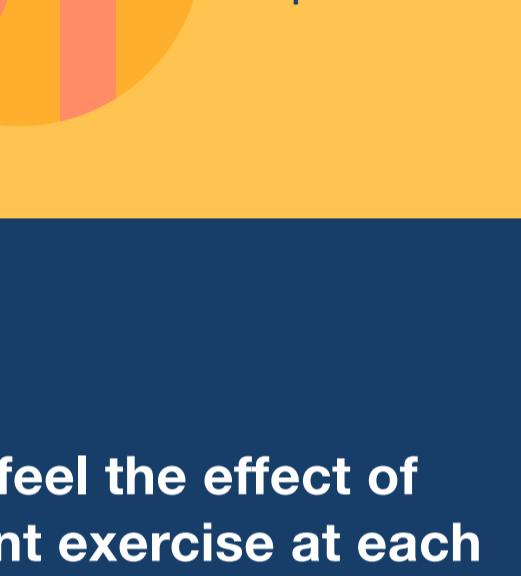

Use a power strip for your office equipment to easily turn multiple devices on and off at the wall, all at once.

Don't charge your phone all night long! Mobile devices only take approximately 2-4 hours to fully charge. Anything over this is wasted energy.

An average printer left on standby mode costs almost 3x more than a printer in off mode does!

Save up any document printing for office days, not WFH days!

To save battery, set a shorter duration in your system settings for when your PC sleeps.

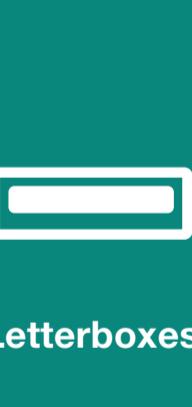

You can also turn on 'Battery Saver' to temporarily turn off some things that use a lot of power, such as apps you're not actively using.

For the few times you don't need the internet, turn on airplane mode in your settings too!

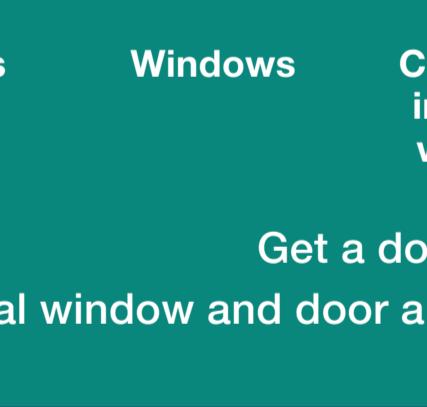

### My body

To keep moving during your working day = win win win

If you get up from your seat frequently, change posture and move around your home, it could:

Walk around to take phone calls

Compete with a friend for daily steps!

Save over £330 a year by insulating your loft (in a mid-terraced house. £590 saving in a detached house)

Energy Saving Trust

Switch to a sit-stand desk
