1. Summary

1.1 This is the Rhondda Cynon Taf Joint Housing Land Availability Study (JHLAS) for 2015, which presents the housing land supply for the area at the base date of 1st April 2015. It replaces the report for the previous base date of 1st April 2014.

1.2 The JHLAS has been prepared in accordance with the requirements of Planning Policy Wales (PPW) and Technical Advice Note 1 (TAN 1). Please refer to these documents for details of the requirements for the maintenance of a five year housing land supply in each Local Planning Authority area and the process for undertaking the JHLASs. <http://gov.wales/topics/planning/?lang=en>

Report production

1.5 Rhondda Cynon Taf County Borough Council issued draft site schedules and site proformas for consultation between 9 and 21 April 2015. Comments were provided by the HBF and Persimmon Homes within this period. A Statement of Common Ground (SoCG) was subsequently prepared and following consultation with the Study Group was submitted to the Welsh Government on 27 May 2015.

1.6 All matters were agreed following the consultation as set out in the SoCG.

1.7 This JHLAS report has been prepared on the basis of the SoCG.

2. Housing Land Supply

2.1 The five year land supply comprises sites with outline or full planning permission, sites with a resolution to grant planning permission subject to the signing of a section

106 agreement and sites allocated for housing in adopted development plans, categorised as prescribed in TAN 1.

2.2 The land supply has been calculated using the residual methodology, based on the Rhondda Cynon Taf Local Development Plan (2006-2021), adopted on 2 March 2011.

TAN 1 categories 2011-14:

UC – Sites or the phases of sites, which are under construction (relating only to the area where building is in progress);

1 – Site or the phases of sites where development can commence immediately, and which are likely to be completed within the first year of the study period;

2 – Sites or the phases of sites where development cannot commence immediately, but where the constraint on development is likely to be removed in time for dwellings to be completed within 5 years;

3(i) – Sites or the phases of sites where development is unlikely within 5 years by virtue of major physical constraints or other constraints as may be agreed by the Group;

3(ii) – Sites or the phases of sites where development is unlikely to occur in the foreseeable future by virtue of major long term constraints.

TAN 1 categories 2015:

- 1** – Sites or the phases of sites which are under construction;
- 2** – Sites or the phases of sites where development either can commence immediately, or the constraint on development is likely to be removed so that there is reasonable time for dwellings to be completed within 5 years;
- 3** – Sites or phases of sites where the Study Group agree that it is not financially viable to develop the site due to market conditions, but which are otherwise free from constraints;
- 4** – Sites or the phases of sites where development is unlikely within 5 years by virtue of major physical constraints or other constraints as agreed by the Study Group.
