Details available on request

LDP Allocation:

NSA 9.18

Type:

Housing

Summary:

The 6.39 hectare site is currently occupied as a hospital. With a range of buildings situated on various levels on the valley side. The site benefits from outline planning permission, with future development of the site dependent on the completion of the replacement hospital in Llwynypia. It is expected that development of the site would replicate the layout of the existing development plateau. The site is adjacent to a large SINC designation, which would require consideration as part of a development scheme.
