**Type:**  
Housing

## Summary:

The site is situated to the north of the village of Cwmbach on sloping ground, rising above and around a recently built housing estate, with woodland beyond. The layout of the adjacent new development allows for very good access directly onto the site. The majority of the 3.85 hectare site is located within a designated SINC, however the land has been cleared and the majority of the SINC is lost. Consideration of the impact of the development on the surrounding SINC, however, would still be required through a management plan.
