

## Llantrisant Tennis Club

On the courts at Llantrisant Tennis Club, coaching numbers with Tennis Squad are at a record high, with well over 100 juniors and adults attending every week. Many junior members are competing in local competitions, and the club has fielded additional teams in this year's summer and winter leagues. They have also relaunched their popular Mixed Social Night to encompass all playing levels.

2022 has also been a year where the club has safeguarded the future of tennis in Llantrisant. After taking out a 10-year lease and installing state of the art gate-technology with online booking, the club installed LED floodlighting. This allows the club to make significant energy savings and enables year-round floodlit play for members and the wider public.
