WANNABE WARRIORS

The Wannabe Warriors Walking Football Group started in May of this year. 14 men attended the first session, and the group have trained once a week ever since. There are now 30 players registered, and an average of 12-14 turn up each week. The group have affiliated with the Welsh Walking football federation, and they plan to enter a league next year. In preparation for the league, they have played several friendly games against other local teams, and entered a mini competition in Brynna where they finished runners-up.

In the summer they held a mini competition in partnership with the Cambrian United Hotsteppers, where they raised £200. This along with funding and sponsorship from various organisations has allowed them to purchase equipment and kit. Next year they hope to start a second session, and field teams in the Under 50's, Over 50's and Over 60's competitions.
