RHONDDA RAPTORS TOUCH RUGBY

2025 has been a great year for the Rhondda Raptors Touch Rugby veterans team, with a growth in member numbers off the pitch and success in matches on the pitch. They have gained many new players, with three of these new players returning to rugby after many years away due to work and family commitments.

Competitively the team have done well, putting in some fantastic performances. They made the final of the East Wales cup and were also finalists in two other South Wales tournaments. The club are dedicated to developing themselves and hope to continue producing success stories for both the team and its members.
