MAERDY COMMUNITY PRIMARY

This year Maerdy Community Primary School nominated six Year 6 pupils to become Young Ambassadors for their school. All six children were nominated because of their love for sport, their leadership skills and their desire to be role models.

Since attending the training conference in October, the group have planned a series of sessions aimed at pupils aged 4-7 years. These sessions aim to develop physical literacy and encourage the young people to be more active. They have also established a Fundamentals lunchtime club which has over 40 children attending each week. The impact of these sessions has been incredibly positive, and the Ambassadors are now looking to engage in after school activities. They plan to eventually work with other Young Ambassadors from neighbouring schools within the cluster to organise larger events- developing opportunities for more young people to be active.
