Winner 4**

BRYNNA JUNIORS FC

Just two seasons ago the Under 11's girls team at Brynna Juniors came together as complete strangers. Most of the girls were brand new to football and had never even kicked a ball before. Fast forward to today and they have become a formidable side full of confidence, teamwork and determination.

From those early training sessions filled with nervous smiles and wobbly passes the girls have grown into strong skilful players who play with passion and pride. Week by week they have built not only their football skills but also lasting friendships, showing what can be achieved through hard work.

Whether they're celebrating a win or supporting each other through tough matches they stick together and show what the spirit of the game is all about. The club could not be prouder of them and how far they have come!
