

Treherbert Bowls Club

Earlier this year the club began talking with an Autistic Centre Official, following a meeting with Interlink. After a visit to assess the facilities it was agreed that the club would hold sessions for the young adults in their group. A session date and time was confirmed and young adults from the Autistic Centre attended with their support staff. After settling in, everyone, including the support staff played some target games. The group enjoyed the session and became familiar with the club volunteers. Members of the Autistic Centre now visit the Treherbert Bowls Club every Thursday to relax and enjoy playing games and socializing.
