

Pontypridd Swimming Club

Aquatic participation and club membership were significantly affected by the Covid pandemic, and 2022 has been a year of recovery for Pontypridd Swimming Club. Their coaches and committee members have worked extremely hard to recruit new swimmers and prepare them for the return of competitive galas, and thankfully their hard work has paid off! More than 50% of their current swimmers were not members before the pandemic, and they have had incredible success at galas with their team.

The club are looking forward to their 2022 Awards evening, where they will recognise and reward the efforts of their swimmers and volunteers!
