

# Treorchy Badminton and Pickleball Club

During the pandemic a small group of badminton players started playing Pickleball outdoors to keep active. They soon found a love for the sport and set up Treorchy Badminton and Pickleball Club. The group now play competitively at both national and international levels. 2022 was a fantastic year for the small club, both on and off the court. After limited success at the Dutch and Spanish Pickleball Open events, the club came into its own at the English Pickleball Nationals in Bolton. The club gained two silvers in the over 50 singles event and the 19+ mixed doubles event, and narrowly missed out on a medal in the 19+ male doubles. The members have really enjoyed these events and have formed a very close-knit social group with other players across Wales.
