DARE VALLEY TROUT FISHERY

Nestled in the stunning landscape of Dare Valley Country Park in Aberdare, Dare Valley Trout Fishery is an angler's paradise! The tranquil three-acre reservoir has been transformed into a thriving trout fishing lake. It is an excellent natural habitat for Rainbow, Blue, and Brown Trout, with sizes ranging from 3lb up to 20lb plus.

Keen on preserving the natural beauty and promoting local wildlife, they are creating wildlife-friendly islands in the lake, which will encourage a variety of birds and wildlife, contributing to the vibrant biodiversity of the park. In the future they are planning to offer fly fishing opportunities for local school children. They are also hoping to gain funding to install a disability fishing platform.
