“I attended the session with my 17 month old baby. She really liked the toys and being able to see other babies enjoying the water. The atmosphere was lovely, and we liked listening to the music. We made a new friend and have been invited to a play date. It's made us feel great, thank you!”

“Absolutely loved our session and the freebies! You've made it inclusive for everyone to attend and thought of everything possible to make sure we had the best time. Would definitely come again.”

“My son absolutely loved the toys in the water. He was throwing the soft puffer fish and I was holding him in a swimming position to collect. He also liked collecting ducks to put on the floats. He enjoyed using the watering cans. Swimming is something we don't do enough of but we enjoyed and would like to make it a weekly thing.”

“I took my 3 month old son. He loves a bath so I was so grateful getting a slot. He absolutely loved it and I can't wait to start taking him more regularly. I attended aqua natal with him and he was born in water so he's a natural water baby!”
