There aren't that many activities for children/ adults with additional needs around so when we heard about these sessions from another mother my son couldn't wait to start! He really looks forward to these sessions, keeping active, socialising with friends and making new ones. The sessions are so much fun and everyone gets involved. It's definitely had a positive impact on my son and we hope that the sessions continue going forward!

This has provided opportunities for a safe environment for children with additional learning needs! There is nothing out there for disabled children especially in RCT. My son has been declined from many sports clubs because of the lack of coaching knowledge with disabilities. This session has given him a club to go to with his friends to learn new things and socialise in a safe environment.
